SIZING GUIDEBOOK

RING - BRACELET - NECKLACE

RING

In France the circumference of your finger in millimeter defines the size of the ring.

For instance, if the circumference of your annular is 51 mm then your ring size for this particular finger is 51.

If you don't know the size of your finger :

I. You can use a ribbon and wrap it around your finger, then mark it or cut it at the point where the end overlaps. Measure the length of the ribbon in millimeters. For example: 48 mm (or 4.8 cm) means your finger size is 48. For the in-between sizes, select the larger measure.

II. You already have a ring you feel comfortable with. Place this ring on a sheet of white paper so you can trace the inner circle with a fine pencil. Then, precisely measure the diameter of the circle and check out your size with the ring size chart. In case of doubt, always select the larger size measure.

III. You may want to use smart phone apps such as finger sizer, ring sizer, ring size which will help you identify your size. For the connections in millimeter with the diameter of a ring, always verify with the [DFLY grid hereafter](#).

CONVERSION CHART (RING)

CIRCUMFERENCE OF THE FINGER IN MILLIMETER (MM)	RING DIAMETER IN MILLIMETER (MM)	FRANCE	SPAIN ITALY SWITZERLAND THE NETHERLANDS	UK	JAPAN	USA
